# MAINTENANCE & PROTECTION

To enhance the durability and appearance, we recommend following our care instructions regularly. The umbrella should never be used in strong wind or rainy conditions. An open umbrella should never be left unattended. We always suggest storing your furniture and outdoor umbrella in a dry place when not in use or using a protective cover to avoid any blurring or damage.

### GUTTERS

Gutters offer an uninterrupted protection between several umbrellas. By connecting the parasols, large areas have a complete coverage against the sun or rainy weather. A gutter is always attached to the parasol with a slight slope in order to drain the water efficiently in the desired directions.

Our gutters are available in the same colour as the cloth of the parasol to match perfectly. Only applicable on the following parasols: JCP.201, JCP.202 and JCP.501.
